## How to create a Neptun <u>account</u>

You need to do this step only once.

**Step 1**: Go to this page: <u>https://oktweb.neptun.u-szeged.hu/neptun/SZTE\_RegEn.aspx</u>

Step 2: Click 'Next'.

**Step 3**: There are four fields you have to fill in here:

- 'Name (Surname and Given name)': You have to put your name here strictly in the following order: Surname/family name first, then your last/given name or names if you have more than one. (Example: If your name is John Doe, then this is what you put in this field: 'Doe John'.)

- 'Mother's maiden name': The order must be the same as above: First her Surname/family name,

then her last/given name or names if she has more than one.

- 'Place of birth': Only the name of the city you were born is needed—do not put your birth country here.

- 'Date of birth': Put your year, month, day of birth here in this order.

In all of the above steps, be careful not to add extra spaces before, after or between your names and that you don't make any spelling mistakes. When you create a Neptun account, the system verifies the data that is present in your Dream Apply registration, so if you're unsure, check the data (name, mother's name, city) in your dream apply account.
