## 1. Introduction

This document presents statistics on the implementation of the Erasmus+ Programme in 2014. It shows the results of the actions implemented in direct (centralised) and indirect (decentralised) management modes, by the European Commission, the Executive Agency and the National Agencies.

The source system used to produce the budget and EU commitments tables is ABAC, the EU Commission's corporate Accounting system. The source systems used to produce the other tables are EPluslink, Mobility Tool for the decentralised actions and Pegasus for the centralised actions.

All tables present data at the contractualisation stage i.e. data from the last amended budget approved by the National Agency except for school-to-school KA2 actions where the data is taken at the time of the grant decision i.e. from budget version 3 in Epluslink. Data has been frozen on 2015, November 25<sup>th</sup>.

During the months of October and November, National Agencies were requested to validate their data on the KA1, KA2, KA3, TECs based on pre-defined BO reports and excel exports provided by the Commission. Ten NAs did validate the complete set of data and 26 more did partially validate (mainly KA1 and KA2 data). In 6 more NAs, tests are on-going while we haven't received any feedback from the remaining 18.

The validation exercise allowed for discovering a series of data quality issues, mainly encoding mistakes and highlighted some misinterpretation of definitions and a need for refining some definitions to improve the data quality. Nevertheless, the European Commission is confident that the main issues have been addressed and that remaining issues do not impact the quality of the information presented. The most relevant definitions used to produce the data are listed below:

### Definitions

<b>Submitted Projects</b>	Number of projects submitted to the NA i.e. with procedure 1.1 signed
<b>Granted Projects</b>	Number of projects contractualised (i.e. with procedure 7.4 signed) except for KA2 – Schools only projects where the number of awarded projects (parent projects) are counted
<b>Success Rate</b>	Number of granted projects divided by the number of applications submitted <b>except for Higher Education</b> where the success rate = number of participants in granted projects / number of participants in submitted projects as all applications submitted by organisations having a ECHE accreditation are granted.
<b>Organisations</b>	For KA1 and KA3, number of organisations having a status Valid and not Withdrawn For KA2, number of organisations included in the last budget version of the project, approved by the NA except for School only projects where the number of organisations is counted in budget version 3.
<b>Participants</b>	For KA1 and KA2, number of participants as recorded at the activities level in the budget For KA2, number of participants in the learning, teaching and training activities only (other participants are not counted)

## 2. Erasmus+ 2014 - Budget and Commitments

### 2.1. Budget and EU Commitments by Management Mode and Key Action

	FINAL BUDGET (in EUR)				EU COMMITMENTS (in EUR)			
	Direct		Indirect	TOTAL	Direct		Indirect	TOTAL

### 3.7. KA1 - Participants by Country (Preliminary results)

Remark: The table below presents preliminary statistics on the realised mobilities while previous KA1 tables present data on planned mobilities. Final results will be known once all mobilities will be finalised. The sample used to produce the statistics represents around 80% of all 2014 mobilities.

Sending Country		School Education	Vocational Education and Training	Higher Education	Adult Education	Youth	TOTAL	%
